

## Welcome to Good Analytics!

We are a dedicated organization that believes in the power of data to drive positive change. As a **nonprofit ourselves**, we understand the challenges that other organizations face in harnessing the potential of their data. That's why we offer **pro-bono data support** to fellow nonprofits, empowering them to make informed decisions and amplify their impact.

Our team of **volunteers** is passionate about leveraging **data for social good**. Whether our client non-profits need assistance with **data collection, analysis, visualization, or impact measurement**, we're here to support them every step of the way. By providing our expertise and resources, we aim to level the playing field and help nonprofits of all sizes maximize the value of their data.

At Good Analytics, we believe that data should be accessible and actionable for all. We work closely with our client non-profit organizations to understand their unique needs and tailor our support accordingly. Together, we can unlock the insights hidden within their data, uncovering new opportunities, and enabling them to make evidence-based decisions.

**WE ARE LOOKING  
FOR VOLUNTEERS**

Join us in our mission to harness the power of data for social impact and create a brighter future for communities in need!

We are looking for volunteers with skills in **data analysis/social media management/project management/fundraising**. We offer our volunteers an opportunity to grow their resume with real life hands-on projects in a non-profit sector and learn data skills.
